

Hello President Massaro !

Sincerely hope you've been healthy and well. Time certainly flies – we're already in a new month!

I just wanted to update you on some good news. Thanks to IFBDO's letter, our volunteer donors were greatly encouraged to continue in their efforts of serving the community through blood donations. In fact, we were able to hold a blood drive on June 14 in light of World Blood Donor Day!

This month, we actually plan on holding a much larger blood drive with a record 70,000 volunteers! This endeavor would not be possible without IFBDO's encouragement and we wanted to send you a personal thank you video message showing our appreciation.

We are so grateful for your support. Thank you again for helping inspire our donors in the noble work of saving lives through giving blood.

Respectfully,  
Kathryn
